ABOUT ME

Recent graduate of Business Information Technology from Haaga-Helia with a focus on software development who is highly motivated and full of can do attitude. Recently interned at Beesh where i worked with individuals from different cultures to bring a change in the field of sex education to kids through technology. With my experience up until now I've met a variety of people and I can say with certainty that one of my strongest suits is my ability to understand and co-operate with different types of people.
